POST-PAID

STRONG, WELL-ROOTED, 2-YEAR-OLD FIELD-GROWN PLANTS

You will agree that we have gathered a beautiful collection of roses on this page. All are strong rooted and well branched—the kind of plants that have the best chance of living when transplanted. They are all of the Everblooming type, one crop of flowers succeeding another at brief intervals. They have been selected for their beautiful form, fragrance and color. These varieties are hardy over most parts of the United States, but need winter protection where temperatures reach zero or below. You have probably wanted a rose garden for a long time. You can now realize your dream—Sears not only have assisted you with a fine selection, but offer these healthy, hardy plants to you at a big saving. **Postpaid.**

The last word in climbing rose elegance! The new Blaze Rambler is a startling beauty. Never has there been a climber with such everblooming qualities.

Blaze starts to bloom in the middle of June, and continues its brilliant display of bright scarlet "fireworks" throughout the summer. Blaze often blooms freely during the first years, but plants should be well established before they give their maximum display. This wonderful rose can be pruned low for bedding, medium for shrub use, or trained as a climber. All are finest quality, strong-rooted and well branched stock.

Sent **Postpaid** from nursery near you, in patented, Pre-Planted Pack, alive and growing! Read about the Pre-Planted Pack at right, below.

The finest of all yellow climbing roses. In addition to its extreme beauty, it is very hardy, and thrives in almost any soil. The blossoms are of the Hybrid Tea type and quality. They are long lasting, and generally grow solitary on stems up to 18 inches long. This rose has received gold medals and certificates of merit from some of the world's leading horticultural and rose societies. Its brilliant, unmatched yellow, and contrasting foliage, endear it to the heart of every rose lover. This is, without a doubt, the finest yellow climber ever produced.

Sent **Postpaid** from nursery near you, in patented Pre-Planted Pack, described at right.

The Pre-Planted Pack

The Blaze, Golden Climber and all Roses on pages 1 and 2 are sent to you in a special, patented, Pre-Planted package. Delivered to you, alive and growing. Sure to bloom during the first year!

Fertilized The roots are packed in specially prepared soil, containing peat moss, phosphate, nitrogen and potash in just the right proportions as specified by soil chemists. The ingredients of this special soil are in the correct proportions for the healthy, vigorous growth, and early blooming of the plant. There is no guess work. These roses come to you in the Pre-Planted Pack, alive and vigorous—actually growing!

Pruned You don't even have to prune the branches of the roses sent you in Sears Pre-Planted Pack! This job is taken care of by experts just before shipment is made. The correct pruning of rose bushes is an expert job, and when properly done the flowers will bloom quicker, and they will be larger and more beautiful than blooms from improperly pruned bushes. There's a thrill in having the first and finest roses in your neighborhood.

Potted What a thrill to get your roses by mail and find them alive and growing! When you receive roses in the Sears Pre-Planted Pack, all you do is remove the plant, soil and all, according to simple directions on the box, set it in the ground, press the earth firmly around it. Water it when necessary, and you'll have blooms in a few weeks! A sure, quick way to a beautiful rose garden! And no losses through improper planting.

NEVER before such a complete assortment—never such a large selection of latest varieties, never such opportunities to save money, never such rigid quality standards. To meet the demands of our many thousands of nursery customers Sears present this new, enlarged, improved nursery service that offers everything you need for garden, yard, orchards or farm at prices you can find only at the World's Largest Store.

Sears guaranteed nursery stock comes from the largest and best nurseries in the United States, located at strategic points for prompt shipment. They are all Northern grown and fully acclimated to conditions in this territory. All of these sources are members of the American Association of Nurserymen, and grading is all done to the strict specifications of this association.

There is no guesswork when you buy Sears guaranteed nursery stock!

Important Information Regarding Prices

Should the Federal Government or any State find it necessary to increase, by taxes or otherwise, the cost or selling price of any of the merchandise described in this catalog, we reserve the right to add any such taxes or other increases of cost or selling price to the prices of merchandise shown in this catalog.

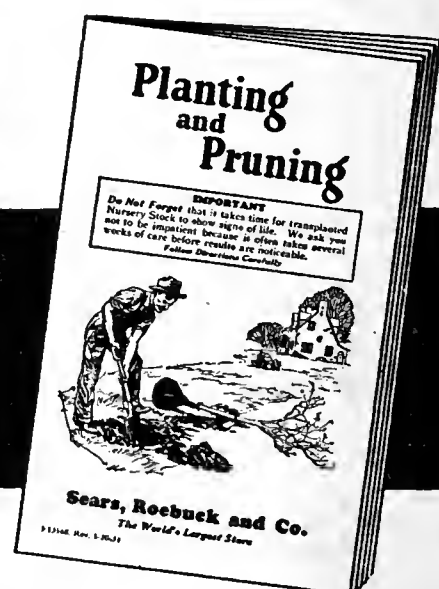

Prices in This Book are for Mail Orders only

The extremely low prices in this catalog are for mail orders only. Our retail store prices are usually higher because of transportation charges and other additional costs for extra services necessary to retail store methods of selling.

OUR GUARANTEE

We guarantee all of our nursery stock, bulbs and seeds, to be true to name, of exceptionally high quality, thrifty and free from disease and to reach you in good condition. Any stock proving otherwise will be replaced free of charge or the purchase price will be refunded. Because of conditions beyond our control after receipt of merchandise and in accordance with trade practice, we cannot be responsible for the crop.

SEARS, ROEBUCK and CO.

Planting and Pruning Guide free with every order for Nursery Stock.

Contains valuable information on planting and pruning shade trees, fruit trees, roses, flowering shrubs, hedges, grape vines, and other interesting data.

over 10,000 acres

FIELD of ONION PLANTS

FIELD of CABBAGE PLANTS

When you order Nursery Stock or Seeds from Sears, *over 10,000 acres of the country's finest and largest nurseries are at your command*—over 15 sections of land devoted to the intense cultivation of Nature's finest trees, shrubs, and plants—the finest varieties grown anywhere!

Nursery stock does not start "paying dividends" until considerable time has elapsed. Therefore, the purchasing of this stock is largely a matter of confidence in the concern from which you buy. Sears have gained the complete confidence of millions of customers in nearly fifty years of business.

EXPERT GROWING

Sears nursery stock is grown by expert nurserymen who have devoted their lives to the propagation and development of quality trees, shrubs, roses and other plants.

Various soils are required for the different kinds of nursery stock. With such an extensive acreage at our command, Sears nurserymen are able to select the type of soil best adapted to the development of any particular stock.

PERENNIALS WITH OVERHEAD IRRIGATION

CAREFUL GRADING AND PACKING

All Sears nursery stock is shipped direct from nursery to you, and is packed with the greatest of care in order that it will reach you in a healthy condition. This assures you of quicker growth and less chance of stock dying out.

Experts grade the nursery stock after it is dug and before it is packed. Every plant is critically examined—it must have an abundance of roots, well-balanced tops—every plant must meet the rigid specifications of Sears and of the American Association of Nurserymen. Every plant must be free from disease. A certificate to that effect is furnished by the Department of Agriculture in the state where the stock was produced, and this certificate accompanies each shipment.

UNPACKING A SEARS SHIPMENT

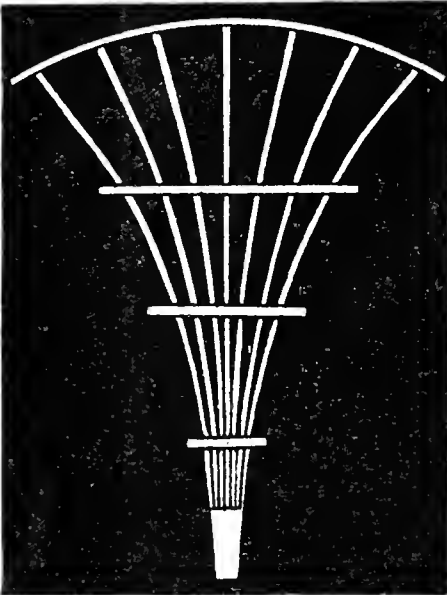

PROMPT SHIPMENT

Sears are prepared to make prompt shipments of all nursery stock in season. Our nurserymen are experienced and familiar with planting and weather conditions, and will make shipment at proper time.

Sears are one of the largest buyers of nursery stock in the United States, therefore demand the highest quality, quickest service and lowest price.

You get the best for less at Sears.

Come=Pakt Planned FLOWER GARDEN

REG. U.S. PAT. OFF.

TAKES THE GUESSWORK OUT OF PLANTING

No longer need you wonder where or how far apart to plant different varieties or whether the height and color arrangement is proper. All the experimenting, planning, designing and selection of flowers has been done for you by a professional landscape architect. Varieties have been selected from such popular annuals as: Zinnias, Marigolds, Petunias, Ageratum, Alyssum, Tagetes, etc. These gardens are perfectly balanced and require little or no weeding or watering. Here is everything you need for the perfect garden. Postpaid.

WHAT YOU GET

- (1) Mulch paper pattern with numbered holes for planting.
- (2) Seven or fifteen packets of seeds from selected flower varieties, depending on size of garden.
- (3) Liberal supply of Vigoro Plant Food.
- (4) Wires and stakes for anchoring Mulch Paper to the ground.
- (5) Sheet of simple instructions.

WHAT YOU DO

- (1) Prepare soil for planting.
- (2) Stake down mulch paper pattern.
- (3) Plant seed from numbered packets in holes of corresponding numbers.

WHAT YOU CAN EXPECT

- (1) A perfectly designed flower bed.
- (2) Earlier, more profuse, larger and better blooms.
- (3) Mulch paper pattern conserves moisture, smothers the weeds and eliminates necessity for hoeing and watering. Increases soil temperature.
- (4) Successful results even in hard-baking soils that defy proper cultivation.

A new variety, popular for beds and borders. Resemble Carnations very closely.
71 T 2300. **Double Mixed.** 12 inches.
71 T 2301. **Single Mixed.** 12 inches.

Oriental Poppy
71 T 2389. 2½ feet. The best of the Poppy family. Huge, cup-shaped flowers on long, heavy stems. Blossoms in May and June.

Platycodon (Japanese Bellflower)
71 T 2397. 18 inches. Handsome silvery green foliage. Large cup-shaped lily-like flowers. Blossoms in June and July. Mixed.

Pyrethrum (Painted Daisy)
71 T 2383. 2½ feet. Upright slender stalks adorned with fernlike leaves and fine terminal blossoms. Splendid range of colors.

Sweet William
71 T 2343. 18 inches. Produces a splendid effect in borders or beds with its rich and varied colors. Many use Sweet William for cut flowers.

Verbena
71 T 2303. **Mixed Colors.** 10 inches. Very desirable for massing in beds and flower boxes. The beautiful range of colors is seldom equaled by other flowers.

Blanket Flower
71 T 2363—**Gaillardia.** 20 inches. They will bloom from early spring until late fall.

Canterbury Bells
71 T 2372—**Campanula.** 2 to 4 feet. A most important flower for the garden. Very effective when near the early Phlox. Plants heavily loaded with pendant bells. Hardy choice mixed.

Coreopsis
71 T 2387. 2½ feet. Large yellow daisy-like flowers with broad fluted petals. Brilliant in the garden and in bouquets.

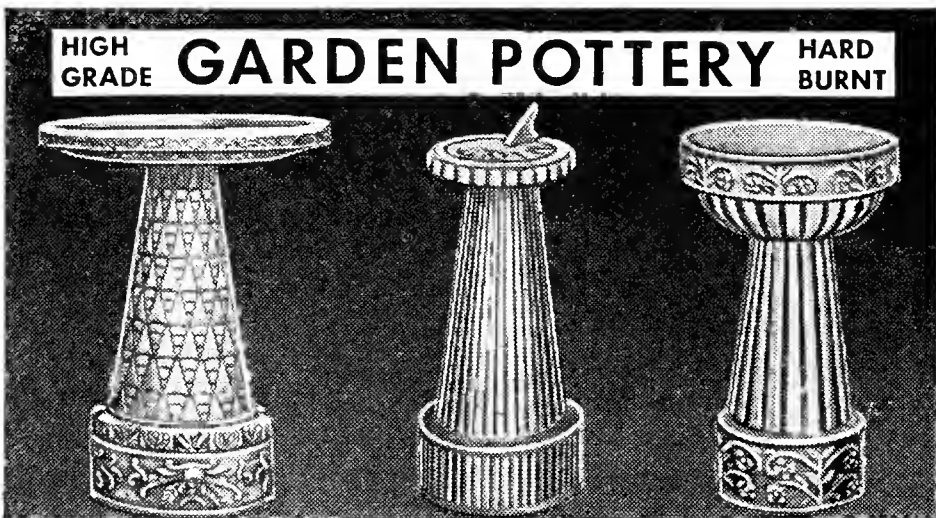

Delphinium (Larkspur)
71 T 2370. 4 feet. Splendid range of colors. Very beautiful.

English Daisy
71 T 2361. 7 inches. Loves a shady place and will reward the gardener with a mass of blossoms.

Shasta Daisy
71 T 2373. 2½ feet. Fine for borders; also for cut flowers. Snowy white with dainty yellow center. Blooms very freely.

Foxglove
71 T 2371. **Digitalis.** 4 feet. Old favorite. Tall and stately spires of thimble-shaped blossoms. Mixed. Fine for backgrounds.

Myosotis (Forget-me-not)
71 T 2388. 6 inches. A charming flower for the border, but particularly suitable for damp, shady spots.

EACH, POSTPAID

Spring Blooming Varieties

Alyssum saxatile compactum: One of the showiest of spring flowers with masses of pale citron-yellow blossoms. Fine for edgings and rockeries. Height, 9 to 12 inches.

Anchusa italica, Dropmore: Border plant. Gentian-blue flowers in spring. One of the best blue perennials. 3 to 4 feet high.

Bellis perennis (Double English Daisy): In bloom from early spring until well on into the summer. Height 8 inches. Mixed colors.

Dianthus barbatus (Sweet William): Old favorites, bearing sweet scented flowers during May and June. For the hardy border and for cutting. Grows to 12 to 18 inches in height. Mixed colors.

Iris germanica (German Iris): Bloom in early June. Colors: blue, pink, yellow, white, lavender and purple. 1½ to 2 feet tall. **State color.**

Iris Kaempferi (Japanese Iris): Very beautiful flowers. Colors: white, purple, lavender, rose, pink and blue. **State color.**

Myosotis (Forget-me-not) **palustris:** Everyone remembers Forget-me-nots. For border, rock garden, or waterside. Blue. Height 8 inches.

Phlox: **Beacon**, cherry red; **Ethel Pritchard**, French mauve; **Frau G. Von Lassburg**, pure white; **Miss Lingard**, pinkish white; **Rheinlander**, salmon-pink; **Sir Edwin Landseer**, bright crimson; **Subulata**, Moss or Mountain Pink. Height 2 to 3 feet. **State varieties wanted.**

Viola (Tufted Pansies): **Jersey Gem.** Blooms from April until snow. Rich, dark violet color, and a delicious fragrance. Height 6 to 8 inches.

71 T 2057—State variety wanted. Postpaid.

Each 17c 3 for 42c

Summer Blooming Varieties

Achillea, "The Pearl": Pure white flowers on strong erect stems. 2 feet high. An excellent variety for use in sprays.

Aquilegia (Columbine): One of the most elegant and beautiful hardy plants, producing graceful spurred flowers on stems 2 feet or more high. Mixed. (See page 13).

Astilbe (Spirea): A very popular perennial. Fit into practically all perennial plantings. Pink or white. Height 30 to 36 inches. **State color.**

Boltonia (False Chamomile): Among the showiest of hardy perennial plants, with large single Aster-like flowers. Height 4 to 5 feet.

Campanula (Bellflower): An old garden favorite. Showy perennial plants. Very desirable and much in demand for rock garden plantings. We offer the following colors: Blue, rose, white, lilac. Height 2 to 3 feet. **State color.**

Campanula carpatica (Dwarf Harebell): Fine as an edging for a hardy border or for the rockery. Grow in compact tufts. Blue and white. Height: 5 to 7 inches. **State color.**

Carnations, Hardy: An attractive flower. Excellent for cutting or landscape. Pink, red and white. Height 8 to 12 inches. **State color.**

Coreopsis: A useful and attractive flower, both for border and cutting. Produce golden yellow flowers. Grows to 1½ to 2 feet.

Delphinium (Larkspur): **Belladonna**, light blue; **Bellamosum**, dark blue; **English Hybrids**, all shades of light and dark blue. Height 3 to 4 feet.

71 T 2057—State variety wanted. Postpaid.

PERENNIALS FOR THE ROCK GARDEN

There's always a place for a rock garden, and there's nothing like one to "dress up" your yard, space considered. Its compactness is one of its charms. Interesting and beautiful combinations to no end can be made with rocks and plants—and perhaps a miniature falls, or a pool spanned by a rustic bridge. Sears offer 2 fine assortments of strong, healthy plants specially adapted to rock gardens. They have been selected with care and are priced exceptionally low. Get the right start! Use Sears plants. Make that old corner come to life!

Rock Garden Assortment No. 1

Achillea: Charming yellow flowers for the rockery.

Alyssum: Dense growth; early; showy golden flowers.

Arabis alpina (White Rock Cress): For edging, rock garden and cutting. Pure white flowers. Very fragrant.

Aquilegia: Known as Columbine. Fine rockery flower.

Myosotis (Forget-me-nots): Make a charming border.

Oenothera (The Evening Primrose): For rockery borders.

Phlox subulata (Moss Pinks): An evergreen carpet.

Sedum (Stonecrop): Very hardy and drought resisting. The dwarfs are excellent for rock gardens. Pink flowers in August and September. Thick sea-green leaves.

Iberis (Hardy Candytuft): Dwarf plants 8 to 10 inches across. Evergreen foliage. Blooms in early spring.

Statice (Great Sea Lavender): Valuable for the border or rockery. 1½ feet high. Purplish blue minute flowers.

Viola (Tufted Pansies): Small, violet colored blooms.

Iris (Dwarf): Lily-like blue flowers with keen foliage.

Postpaid.

PLANT PERENNIALS THEY THRIVE and BLOOM YEAR AFTER YEAR

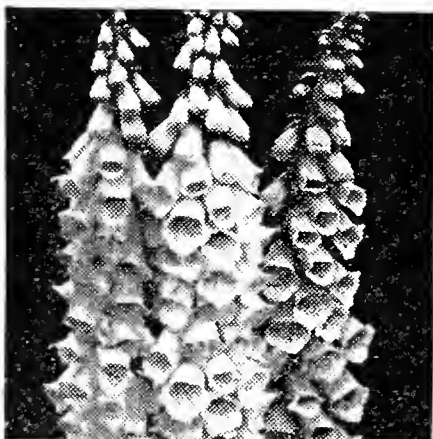

ASTER (Michaelmas Daisy)

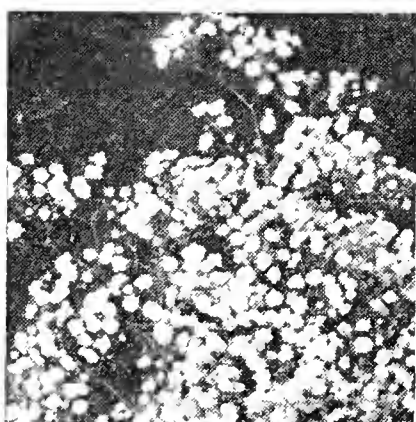

CHRYSANTHEMUM

DIANTHUS (Sweet William)

DIGITALIS (Foxglove)

GYPSOPHILA (Baby's Breath)

Dianthus (Sweet William): White, violet and crimson blossoms. Sweet smelling and showy flowers. 1 to 2 feet.

Digitalis (Foxglove): Hybrids. These plants are not offered as to color but are mixed. Colors range from white and shell-pink to deepest rose. Height, 2½ to 3 feet.

Funkia (Plaintain Lily): An attractive flower for borders. Have broad, massive foliage. White blossoms. 12 to 18 inches.

Gaillardia (Blanket Flower): Yellow flowers flecked with crimson and brown. A sturdy vigorous plant that grows to a height of 2 feet. It starts blooming in June and lasts through the autumn and into the winter.

Geum (Avens): Pretty for borders, growing about 15 to 18 inches high. Produce showy, bright colored flowers. Fine for the rockery.

Gypsophila (Baby's Breath): When in bloom it is a mass of tiny white flowers forming a beautiful, airy, mistlike effect. Grows 2 to 3 feet high. Fine for mixing with other cut flowers.

Hemerocallis (Lemon Lily): Sweet scented, lemon-yellow Lilies flowering in June and growing about 2½ to 3 feet in height.

Lychnis chalcidonica: Heads of vivid scarlet flowers. Blooms a long time. 3 feet high. An old garden favorite.

Oenothera (Evening Primrose): Elegant for borders or on the rockery. Blooms all summer. Lemon-yellow blossoms. Height, 2½ feet.

Pachysandra (Japanese Spurge): One of the best ground covering plants. Fully and practically evergreen. Bears small spikes of light colored flowers in May and June. Height 6 to 9 inches.

Papaver orientale (Oriental Poppy): Tremendous cup-shaped blooms of brightest crimson-scarlet, with large, purplish black blotches at base of petals. Height, 2 to 3 feet.

Platycodon (Balloon Flower): Produce attractive blue or white flowers. Fine for cutting and borders. Grows anywhere. 5 to 7 feet.

Pyrethrum (Painted Daisy): Mixed shades of pink to dark crimson. Attractive blossoms, unsurpassed for beauty. Grows 1 to 2 feet high. Foliage is fine and fernlike.

Rudbeckia (Golden Glow): Large Dahlia-shaped golden yellow flowers. Fine for cutting and borders. Grows anywhere. 5 to 7 feet.

Shasta Daisy, Alaska: Pure white petals and yellow centers. No bouquet is complete without some of these lovely flowers. 2 to 3 feet. Covered with bloom throughout the summer.

Tritoma (Red Hot Poker): Rich orange, scarlet blooms. Stems 3 feet high. Grows in any garden soil. (See page 48).

Fall Blooming Varieties

Anemone Japonica: (Windflower). Grows 2 to 3 feet high. (See Page 13).

Whirlwind: Double white flowers. Blooms late fall.

Queen Charlotte: LaFrance pink. Excellent for cutting.

Asters (Michaelmas Daisy): Hardy. Blue and pink. 3 to 4 feet high. Bloom September and October. State color.

Chrysanthemums, Hardy: A favorite for generations. Height 2 to 3 feet. White, red, pink or yellow. State color.

Stokesia (Cornflower Aster): A fine hardy plant of the Aster family. Beautiful blossoms of azure-blue. 18 to 24 inches. (See page 13).

Yucca filamentosa (Adam's Needle). A low-growing evergreen plant. Branching spikes of drooping creamy white flowers. Blossoms on sturdy stalks from 3 to 6 feet high. Fine for the lawn or large rockery.

CHOICE SELECTION OF FLOWERING SHRUBS

DEUTZIA

DOGWOOD

HONEYSUCKLE

HYDRANGEA

Nothing in the way of home improvement can add to the value of the home as quickly and as cheaply as a shrub planting. Select an assortment from these choice hardy varieties. All strong, well rooted plants not to be confused with weak, spindly plants at lower prices. Shipped from nursery near you. **Postpaid.** All shrubs are 18 to 24 inches tall, unless otherwise specified.

Almond, Pink Flowering. 71 T 1301—Small shrub with beautiful soft pink, double flowers in early season. Strong plants.

Althea (Rose of Sharon). 71 T 1300—Makes a compact, upright growth from 8 to 12 feet. Pink flowers. 2 to 3 ft. plants.

Barberry, Japanese. 71 T 1307—Fine shrub for all purposes. Good for planting next to foundation of house.

Barberry, Red-Leaved. 71 T 1308—Has attractive red foliage summer and fall. Must be planted in sun.

Bridal Wreath (Spirea Van Houttei). 71 T 1466—A popular shrub. Very attractive with its mass of white flowers in April. 2 to 3 ft. plants.

Butterfly Bush. 71 T 1311—Grows 3 to 6 feet tall. Conspicuous lavender "lilac" flowers.

Coralberry (Red Snowberry). 71 T 1323—Clusters of pink berries. Valuable for shady places.

Deutzia, Pride of Rochester. 71 T 1335—Fast grower. Flowers in large clusters in May. White, tinged with pink. It should not be trimmed as pruning spoils its form.

Dogwood, Red-Barked. 71 T 1339—The red bark of this shrub is attractive in winter. Heavy, 2 to 3 ft. plants.

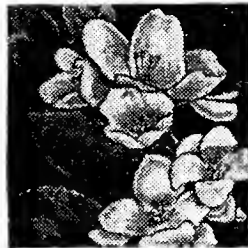

Golden Bell (Forsythia). 71 T 1371—Hardy, fast-growing shrub with good foliage, which follows the showy yellow, bell-shaped flowers.

Golden Elder. 71 T 1356—Foliage is green in spring but turns to bright golden yellow later. Adds a touch of color to any shrub planting.

SNOWBALL

SYRINGA

WEIGELA

Honeysuckle, Fragrantissima. 71 T 1377—Grows 6 to 8 ft. Broad and spreading. White flowers followed by red berries that hang on into the winter. 2 to 3 ft. plants.

Honeysuckle, Red Tartarian. 71 T 1380—Large shrub. Red flowers. Good for mass planting.

Hydrangea A. G. (Hills of Snow). 71 T 1375—Huge, dense balls of small white flowers in June and July. 4 to 6 ft. tall.

Hydrangea P. G. 71 T 1376—Larger than the Hydrangea A. G. Clusters of very showy white flowers, turning pink and bronze later. Blooms in August.

Japan Quince. 71 T 1446—Grows 4 to 6 feet. Glossy green foliage. Attractive scarlet flowers in May, followed by fragrant fruits.

Lilac, Purple. 71 T 1410—The well known variety with fragrant, purple flowers. 2 to 3 ft. strong hardy plants.

Snowball. 71 T 1480—Noted for its clusters of handsome, globular, pure white flowers in May.

Snowberry. 71 T 1485—Small, pink flowers in July, followed by waxy white berries. 2 to 3 ft. plants.

Spirea Anthony Waterer. 71 T 1467—Low-growing shrub with dense, deep green foliage. Bright pink flowers in clusters. 12 to 18-inch plants. Hardy, and succeeds in any soil.

Spirea Froebeli. 71 T 1472—Similar to Spirea Anthony Waterer but not quite so dwarf.

Spirea Thunbergi. 71 T 1470—Dwarf growing with slender, graceful, drooping branches. White flowers. Plant in front of tall shrubs.

Syringa (Mock Orange). 71 T 1460—Flowers are like orange blossoms. Attractive foliage.

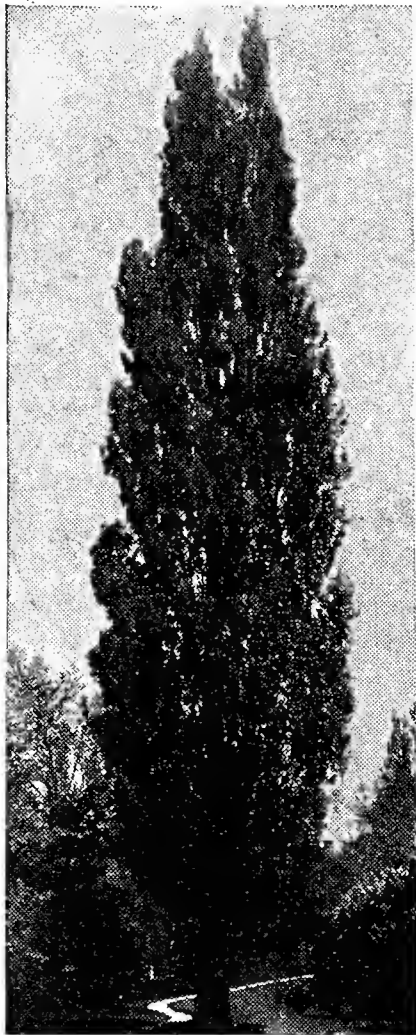

Weigela, Pink. 71 T 1505—Showy flowers that vary from deep rose to pink. Blooms in May.

Weigela, Red. 71 T 1506—Red flowers and attractive foliage. Valuable for city planting.

SHADE TREES and

It is difficult to estimate the value of a well-placed tree, often called "the noblest of Nature's handiwork." The home owner's problem is a selection of a few of the best types for planting on his own grounds, to protect his home from the summer's sun and to beautify his home surroundings.

The trees offered by Sears are straight, hardy stock, especially selected for lawn, street or larger areas.

Norway Maple Trees

EACH
6 TO 8 FEET

\$1.45

See Description Below

ASH

American: 71 TM 1126. Grows to a height of 40 to 80 feet. One of our most graceful trees. Light gray bark. Foliage turns gold and purple in autumn. The seed wings hang in dainty clusters from slender stems. Does not require pruning, and is long lived.
6 to 8 Feet, Each85c

ELMS

American: 71 TM 1138. Very tall and graceful, growing to height of 60 to 100 feet. Huge trunk divides into two or three main branches. Beautiful anywhere.
6 to 8 Feet, Each87c

POPLARS

Carolina: 71 TM 1205. Grows in any soil, from 40 to 50 feet high. An erect, columnar tree when grown alone. When planted close, makes dense wind-break or hedge.
6 to 8 Feet, Each55c

Lombardy: 71 TM 1209. For description and quantity special, see top of this page.
6 to 8 Feet, Each69c

ORIENTAL PLANE

European Sycamore: 71 TM 1222. Popular for quick growth for shade and ornamentation along new streets. Beautiful foliage. Attractive grayish green bark, becoming mottled with white in winter. We do not recommend this tree for sections having severe winters. Shipped only from Delaware and Kentucky nurseries.
6 to 8 Feet, Each98c

MAPLES

Norway: 71 TM 1189. A handsome variety of this old favorite. Grows to height of 40 to 60 feet, forming a round head of dense foliage of darkest green. Its yellow-green blooms appear in May. Its seed wings are large and ornamental. Changes to golden yellow in autumn.
6 to 8 Feet, Each\$1.45

Silver: 71 TM 1193. Also known as Silverleaf, Soft or White Maple. Grows to 50 feet high. Its silver-gray bark furnishes year-'round attractiveness. Foliage deep cut; light green above with bright silver sheen beneath, changing to golden tones in autumn. Profuse small, reddish green blossoms appear ahead of the leaves. Fine street tree.
6 to 8 Feet, Each83c

Sugar: 71 TM 1297. Also known as Hard or Rock Maple. Grows to height of 50 to 80 feet. Very erect, and adapts itself to any soil. Sap used for maple syrup and maple sugar. Fine for lawns.
6 to 8 Feet, Each\$1.69

Schwedleri: 71 TM 1295. Sometimes called Purple Norway. Grows 30 to 50 feet high. Well-rounded shape. Large leaves, which are purple and bright red when young, changing to bronze-green and green; red and brown in autumn.
6 to 8 Feet, Each\$1.98

Wier's Cut Leaf: 71 TM 1299. A variety of the Silver Maple. Grows to 50 feet high. Soft green leaves, with silvery sheen underneath, turning to gold in autumn. Stands severe pruning, but is fine for streets untrimmed.
6 to 8 Feet, Each89c

On account of size of above trees they are not mailable. Shipped by Express or Freight from Nursery in Southern Michigan, Northern Kentucky, Southern Delaware, Western Iowa or Eastern Minnesota, whichever is nearest you. Not Prepaid. Shipping weight, each, 5 pounds.

CLIMBING VINES

There is a dignified beauty about climbing vines that appeals to almost everyone. The vines offered by Sears are selected, healthy plants of the most popular varieties. Whether trained on buildings or trellis, they will add greatly to the life and beauty of their surroundings. Climbing Vines Postpaid.

29c EACH

AND UP, POSTPAID

Bittersweet: Unusually attractive. Orange-red berries. Rapid growing; twining vine.
71 T 1088—Each33c

Boston Ivy: Clings firmly to brick, stone or cement. Foliage turns to crimson in autumn.
71 T 1091—Each33c

Clematis Paniculata: Good porch vine. Flowers small, white, star shaped and fragrant. An old favorite climber!
71 T 1092—Each33c

Clematis Jackmani: A large flowering type. Rich, velvety, violet-purple flowers. A rapid climber, blossoms from July to September. Grows to 10 feet or more.
71 T 1094—Each59c

Climbing Hydrangea: A striking vine. Beautiful large green leaves. In spring the whole is a mass of striking white, flat flowers. Makes a splendid wall cover.
71 T 1102—Each98c

Dutchman's Pipe: Is a perfectly hardy, strong and rapid growing vine with broad, rich green leaves. The bloom is small, brownish shade in color and resembles somewhat the shape of a pipe. Fine for porch or trellis.
71 T 1087—Each79c

English Ivy: Foliage thick, dark glossy green. A favorite vine in the rock garden; also for ground covering where grass is sparse.
71 T 1090—Each29c

Euonymus Radicans: Winter creeper. An evergreen vine. Clings to walls.
71 T 1100—Each49c

Euonymus Vegetus: Very attractive, fine for covering low walls. A perfectly hardy evergreen, the orange-red berries remaining on the plant well into the winter. Glossy leaves.
71 T 1101—Each59c

Hall's Honeysuckle: Good for embankment, porch or fence. Attractive blossoms.
71 T 1082—Each33c

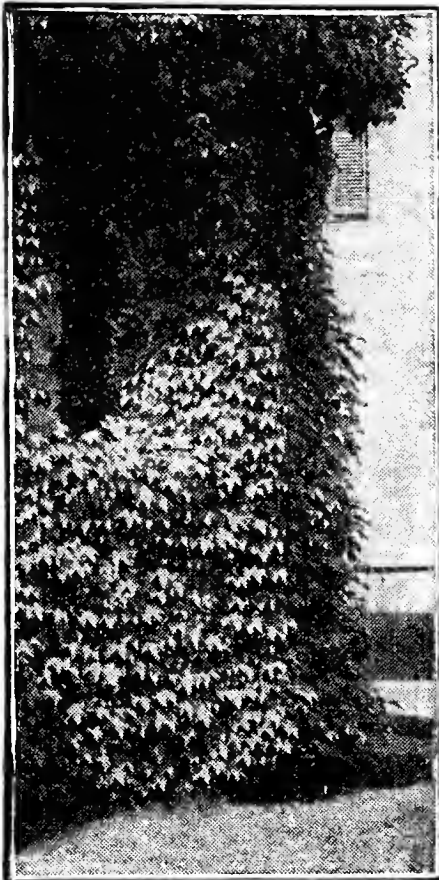

Matrimony Vine. Ornamental, shrubby climber. Small purplish flowers in summer, scarlet berries until late winter.
71 T 1077—Each33c

Scarlet Trumpet Honeysuckle: A porch or trellis vine. Large trumpet shaped flowers of bright scarlet.
71 T 1081—Each33c

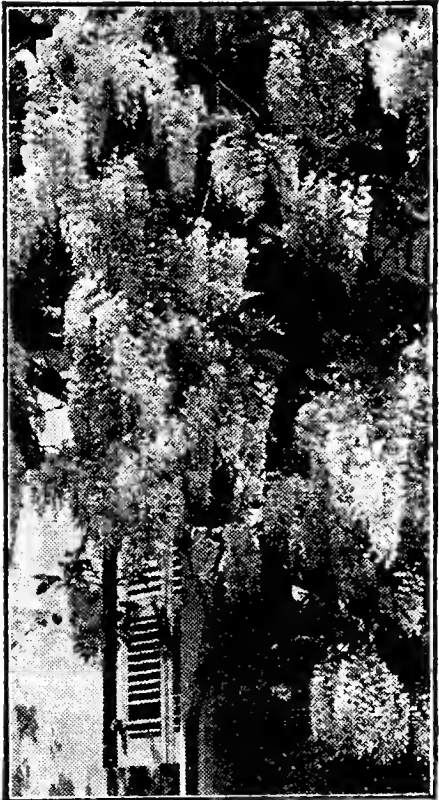

Trumpet Vine: Used for covering arbors, summer cottages, etc. Orange-scarlet flowers. Very hardy.
71 T 1078—Each33c

Wisteria: Splendid vine with beautiful foliage; long clusters of pea shaped lavender blue flowers.
71 T 1083—Each33c

Shipped from nursery near you. Postpaid.

BOSTON IVY

WISTERIA

Silver Lace Vine

A beautiful, quick growing, twining type vine, averaging about 25 feet per season. Bears silvery white flowers from Summer to Fall. Postpaid.

BUILD A LIVING FENCE!

There is nothing like a permanent living fence grown from Sears strong, well-branched plants. No painting or repairing necessary. First cost is the last. Plant a hedge while these low prices are still in force. Prepaid. State varieties wanted.

California Privet: The popular hedge plant with glossy, thick, deep green leaves. Grows very rapidly. Easily trimmed. All good, strong, quick growing plants. Hardy and beautiful. Plant 6 to 10 inches apart. Will not stand severe freezing. Plant Amoor River Privet in cold sections.

Japanese Barberry: Grows 3 to 4 feet. The best small hedge; also used for edging walks, drives and for garden borders. Has small red berries in Fall and Winter. Small foliage, takes on gorgeous coloring in the Autumn. Makes tight, but low, defensive hedge.

Amoor River Privet: Glossy green foliage. Forms a dense handsome hedge and stands shearing to any extent. Very hardy and if not trimmed grows 8 to 12 feet high, producing numerous white flowers, followed by steel-blue berries. Valuable for hedges in eastern and northern states. Plant 6 to 10 inches apart.

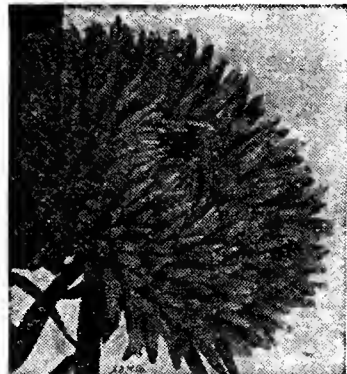

Spirea Van Houttei (Bridal Wreath): Hardy; makes beautiful hedge. Plant 18 to 24 inches apart. Grows 6 to 8 feet high. Graceful arching, slender branches covered with a mass of small white blooms in May. Just the thing for back or side-yard hedge.

GROW YOUR FAVORITE FLOWERS

Ageratum

Mixed Colors: 71 T 2310—(10 in.). A hardy annual with lavender, blue and white flowers.

Amaranthus

Mixed: 71 T 2311—(2½ ft.). Effective for borders, groups and foliage.

Asters

Giant Ostrich Plume: 71 T 2359—(18 in.). The finest type of ostrich-feather Aster.

Giant Branching: 71 T 2307—(18 in.). Long stems make this variety desirable for cutting.

Giant Comet: 71 T 2308—(18 in.). Mixed colors. They make a gorgeous display.

Begonia

Mixed: 71 T 2385—(1 ft.). One of the most satisfactory bedding plants.

Balsam Apple

71 T 2324—(12 in.). A climber. Cream colored flowers; yellow fruit.

Bachelor Button

Cornflower: 71 T 2318—(1½ ft.). Flowers of rich purple, blue and white.

Imperial (Royal Sweet Sultan). 71 T 2319—(2½ ft.). Excellent for cutting. Mixed colors.

Clarkia

Mixed: 71 T 2377—(2 ft.). Delicately colored double flowers, resembling small carnations strung along stems.

Calliopsis

Tickseed: 71 T 2362—(24 in.). Graceful border plants. Fine for bouquets and vases. Yellow.

Calendula

Pot Marigold: 71 T 2358—(18 in.). One of the showiest hardy annuals.

Candytuft

Fine Mixed: 71 T 2306—(10 in.). Produces many flower clusters in wide range of colors.

Carnation

Giant Marguerite Mixed: 71 T 2354—(18 in.). Flowers of very large size; colors include pink, crimson, striped, and white.

Chrysanthemum

Single Mixed: 71 T 2355—(20 in.). A popular garden flower. Makes a beautiful border.

Climbing Bean

Jack or Hyacinth Bean: 71 T 2326—(15 ft.). A splendid climber with clusters of purple and white flowers.

Cockscomb (Celosia)

Tall Mixed Plumosa: 71 T 2316—(2 ft.). An old favorite. Brilliant until frost.

Chinese Woolflower (Childsi). 71 T 2317—(2 ft.). Flowers resemble ball of vividly colored wool. A bright spot for any garden.

Cosmos

Giant Mixed: 71 T 2320—(5 ft.). A hardy fast growing annual with feathery green foliage.

Cypress Vine

71 T 2325—(18 ft.). A climber with dark green foliage; white and red star-shaped blossoms. Mixed colors.

Four O'Clock

71 T 2329—(2½ ft.). An old favorite. Flowers open about 4 o'clock in the afternoon.

Geranium

71 T 2312—(2 ft.). Raise your own plants from this splendid seed. Fairly easy to grow. Mixed colors. For flower pots or gardens.

Gourds

71 T 2327—Gourds are very interesting climbers. All sorts mixed.

Heliotrope

71 T 2386—(2 ft.). A rapid grower; large clusters of dark blue flowers.

Lady Slippers

Double Mixed: 71 T 2313—(1½ ft.). Produce an abundance of brilliantly colored flowers.

Larkspur

Tall Double: 71 T 2333—(3 ft.). Mixed colors. One of the most popular annuals.

Lobelia

71 T 2349—Invaluable for edging borders. Dainty blue flowers somewhat like tiny butterflies in form.

Lupins

71 T 2374—(7 in.). Free-flowering; long, graceful spikes of rich colored, pea-shaped flowers. Mixed colors. A splendid flower for borders.

Marigold

Double African Mixed: 71 T 2334—(2½ ft.). One of the last flowers to bloom in the fall.

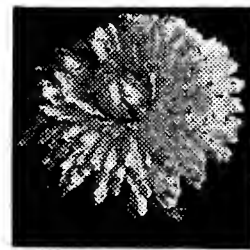

Mexican Fire or Burning Bush

Kochia: 71 T 2332—(2½ ft.). Forms a green globe-shaped bush; turns deep red in fall.

Morning Glory

Imperial Japanese: 71 T 2328—(10 ft.). Flowers are the largest of any Morning Glory. Mixed colors. The favorite of young and old.

You know what a thrill it is to open a surprise package, especially if you are sure that you are going to get full value or more from your expenditure. Now you have a chance to get the same thrill from a collection of Dahlia bulbs from the test gardens of our finest Dahlia growers. We promise you a startling surprise in this collection of originator's unnamed varieties. Order yours today!

You may produce a prizewinner from these new developments! They are from the test gardens of the originator of "Heart of Milwaukee" who has developed a strain of Dahlias noted for their large, gorgeous blossoms and long stems. It is interesting to grow these new types as one never

knows what they will develop in color, form, or size. Coming from the test gardens of the originator of "Heart of Milwaukee," these tubers should develop plants containing the characteristics of this highly cultivated strain and which will be the envy of all who see them.

HEART OF MILWAUKEE

Illustration 2-3 actual size

Here's the World's Outstanding Dahlia! The dahlia that was selected for the highest award at the International Dahlia Exhibition at A Century of Progress! And now Sears offer it to you for only 83 1/3c each in lots of three! This is an unheard of low price for an introduction of such a famous flower—usually such bulbs are sold at prices ranging from \$2.50 to \$25.00 each.

Nowhere else can you secure this famous dahlia. Sears have secured control of the originator's entire production, and because of our low distribution costs, we are able to furnish this most lovely of all dahlias at an extremely low price.

Its rare beauty is, of course, unquestionable—gigantic apricot-gold blossoms, 8 to 10 inches in diameter, on long, strong stems. You must see them to really appreciate them. Enjoy the thrill of raising and cutting a world-beater—with your own hands in your own garden. Remember that only at Sears can you get "The Heart of Milwaukee." **Postpaid.**

100 CHOICE Gladiolus Bulbs
10 EACH of 10 VARIETIES **\$1.89**
POST-PAID

All Gladiolus lovers will welcome the opportunity to purchase this wonderful assortment of outstanding varieties, and especially at Sears low price. This collection will supply your "Glad" garden with a "riot" of gorgeous colors that will be a real feast for the eye!

This choice collection was selected for us by one of America's leading Gladiolus experts. If you were to buy the bulbs separately, one variety alone would cost you as much as we ask for the entire collection. It's an amazing bargain! These are not "bulblets," but are regular bulbs 1¼ inches and up in size, and are backed by Sears guarantee.

Chas. Dickens: Purple-violet. Long, gracious spikes.

Golden Dream: One of the best deep yellows.

Giant Nymph: A winner. Large, light pink with cream throat.

Dr. F. E. Bennett: One of the most brilliant scarlets grown.

Mammoth White: White blooms often measure 7 inches.

Betty Nuthall: A glowing orange-pink with yellow throat.

Romance: Smoky heliotrope with yellow throat.

Minuet: A very lovely clear lavender.

Orange Queen: An early bloomer. Beautiful copper-orange.

Mrs. P. W. Sisson: Soft cameo pink. Strong grower.

Picardy Gladiolus

New! Sensational! Picardy is without doubt the most beautiful "glad" ever introduced. Large, ruffled, wax-like blooms of a delicate apricot-pink. Just a season or two ago single bulbs of Picardy sold for as high as \$2.50 each!

500 Bermuda Onion Plants

67^c

POSTPAID

IT'S EASY TO GROW ONIONS When You Use Sears Healthy Plants

It's much easier to grow an onion crop from plants than it is from either sets or seeds. You can have fine matured onions from our plants at least two weeks ahead of onions from sets and a long time ahead of onions from seeds. Besides, there is an advantage in using plants because they seldom run to seed, while onions from sets do run to seed.

Our onion plants are sturdy and healthy. They are grown on disease-free land and are inspected by State Inspectors before shipment.

All onion plants shipped in special aerated containers, so that they will reach you in perfect condition. **Postpaid.** Crate lots shipped by express, not prepaid.

Bermuda Onions

Bermuda onions are noted for their earliness, heavy yielding qualities and mildness of flavor. They are the mildest onion we know of. Equally good pulled green or after they have matured. Fine for slicing or cooking. The demand for Bermudas has increased tremendously in the past few years and growers who want to keep up with the times should by all means plan to grow some of this type. Suitable for home gardens, too.

Yellow Bermudas

The Yellow Bermuda made Texas famous as an onion growing state. Sometimes called White Bermuda, although it is a light yellow or straw color. The Yellow Bermuda keeps a little better in storage than the Crystal Wax, so be sure to plant a few rows of each kind.

5 Bundles—71 T 705
(Approximately 500 plants). **67c**

Crate lots shipped by Express. Not prepaid. Shpg. wt., 35 lbs.

Crystal Wax Bermudas

A pure white onion with a pleasing waxy appearance that makes it very popular in the retail market. Usually brings 25c to 50c per crate more than the Yellow.

The Crystal Wax is almost exactly the same as the Yellow Bermuda in quality, the color being the main difference.

5 Bundles—71 T 700
(Approximately 500 plants). **67c**

Sweet Spanish or Valencia Onions

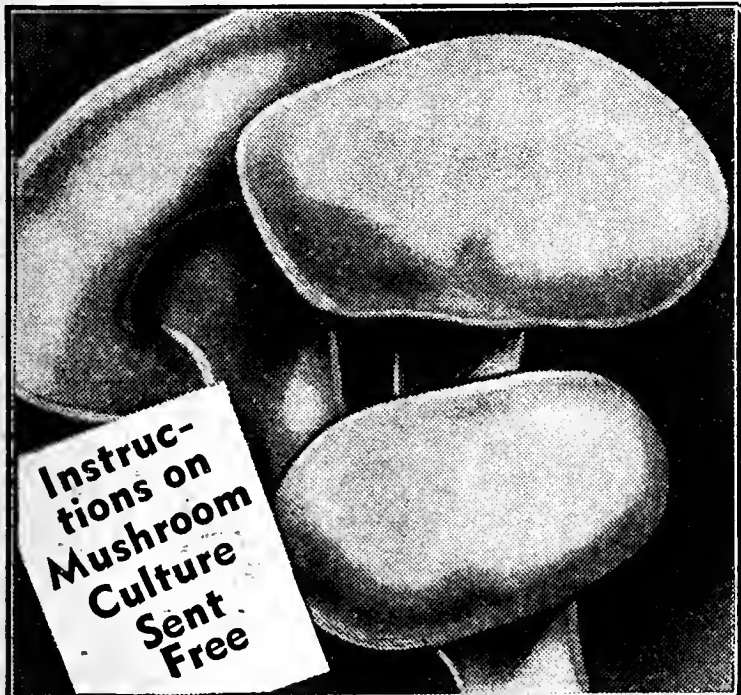

Riverside strain. The better keeper and best all-around variety of the large sweet Spanish types. Globular; uniform size. Similar to Prizetaker but larger. Golden yellow skin; flesh white, very mild and pleasing flavor. Order some Sweet Spanish with your Bermudas and have onions long after the other varieties are off the market.

5 Bundles—71 T 710 | **10 Bundles—71 T 711**

6000 Plants (1 crate).
71 TM 712—Not prepaid.
Shipped by Express **\$3.98**
Shpg. wt. 35 lbs. .

NOTE—Onion plants are tied in bundles of approximately 100 plants. Bundles may vary slightly, some containing a few less than 100 plants and some containing a few more. Orders for 500 plants must call for only one variety.

Earn Extra Money by Growing MUSHROOM SPAWN

Sears Mushroom Spawn is the very best that can be produced. All materials have been sterilized and the spawn grown under absolutely germ-proof conditions. Samples of this lot of spawn have been used in large commercial mushroom houses, and have produced maximum crops. Sears spawn will produce white mushrooms of a superior quality for which there is always a good market. Earn extra money by growing mushrooms in your cellar. Start a bed right away. For \$1.00 we will send you enough spawn for approximately 40 square feet, together with complete Cultural Instructions, which explain the preparation of the compost, making the mushroom beds, spawning, ventilation, watering and picking.

Postpaid.

GUARANTEED
FIELD GROWN
Plants

FROSTPROOF CABBAGE PLANTS

200
PLANTS

69¢ And
Up
POSTPAID

Sears Frostproof Cabbage Plants will stand 20 degrees above zero without injury, while under similar conditions tender plants would freeze. Their frostproof qualities make it possible to set in the open field much earlier than tender plants, which means that you can get matured cabbage on the early market when highest prices prevail.

IMPORTANT: To get the full benefit of their frostproof qualities, set these plants out at least a month earlier than usual. When weather is cold the tops do not grow, but the roots develop and are ready to boost top growth when spring comes. If you want plants for setting in cold frames, please so state on your order and give shipping date.

Varieties, (listed in order of maturity): Early Jersey Wakefield, Golden Acre, Copenhagen Market, Early Flat Dutch, Premium Late Flat Dutch.

State variety wanted. Varieties are tied 50 to the bundle and orders should be made up in multiples of 50 of a kind. Shipped from Georgia or Texas. Ready about April 1st. Late season orders shipped from Indiana or Delaware.

Even if plants look wilted on arrival, they will grow if planted immediately.

Yellows-Resistant Varieties

These varieties will produce a normal crop on soils that are infected with the disease known as Yellows, where non-resistant strains would fail.

Marion Market: A yellows-resistant strain of Copenhagen Market, but not so early. Round head, tender and crisp.

Wisconsin All Seasons: An excellent substitute for the regular All Seasons on diseased land. Fine for kraut.

State variety wanted. See shipping points above.

FIELD-GROWN PEPPER PLANTS

FOR EARLIER CROPS

100 Plants

69¢

POSTPAID

The successful truck farmer diversifies his crops. He grows a wide variety of the things the customer demands. The demand for Peppers is steadily increasing. You can cash in on this demand by growing a crop of Peppers from Sears field-grown plants—the easy and quick way. Ready for shipment from Georgia or Texas about April 10th. Late season orders shipped from Indiana or Delaware. **Varieties are listed in order of maturity.**

Ruby King. Plants are vigorous, upright and very prolific.

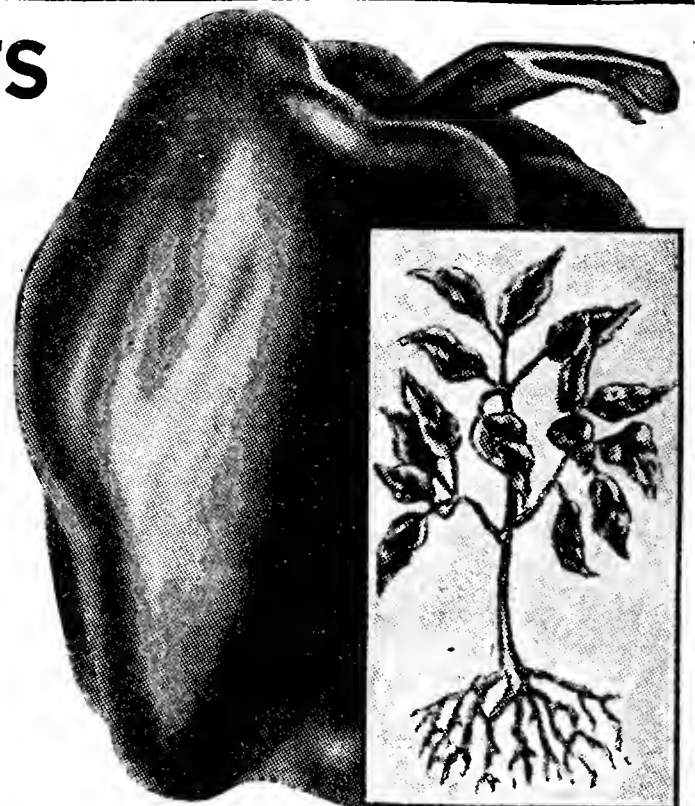

Pods 4½ to 6 inches long and 3¼ inches wide. Sweet and bright red when ripe, deep green when young. Flesh thick and mild flavored. One of the best for table use.

Bell or Bullnose. Large red. Classed as sweet, but occasionally plants will produce mildly hot fruit. Exceptionally productive. Crop ripens early and evenly. Splendid variety for stuffing, for salads, or for flavoring.

California Wonder. Very mild and sweet. Extremely large; ideal to stuff. Green changing to red. Fruit measures 4½ in. long by 4 in. in diameter. Very thick flesh.

State variety wanted. Postpaid.

FIELD-GROWN TOMATO PLANTS

Sears Tomato plants are grown in the open field, and are well hardened and capable of standing more abuse than tender plants. Sears plants will produce early crops at a time when home-grown tomatoes usually bring a

premium. Your tomatoes will be ready for market weeks ahead of a crop grown from seed. Shipped direct from grower in Valdosta, Georgia or East Texas. Late May orders shipped from Indiana or Delaware.

VARIETIES ARE LISTED IN THE ORDER OF MATURITY

Earlana: A first class tomato that is profitable for both the market gardener and the home gardener. Bright scarlet color.

Greater Baltimore: A midseason variety of great merit. Very heavy, due to the extreme firmness of the thick meat. Many claim this is the finest canning tomato in existence. A dependable producer.

Marglobe: A wilt-resistant, main crop, midseason variety. A fine red, globe-shaped tomato of great merit. Very productive.

Redfield: One of the most satisfactory tomatoes you can grow. Has a very tough skin and can be hauled or shipped long distances without damage. Its color is a glossy crimson with a slight purple tinge. Fruit is uniform in size and of excellent quality. Bears fruit long and heavily.

Stone: A first class tomato for the main crop. Extra large and bright red. A standard tomato for those who grow for canning. Also a good slicing tomato, solid, smooth and round.

State Variety Wanted. Ready about April 15th. Please specify shipping date and plants will be forwarded as nearly as possible to the time specified. Also specify if wanted for growing in cold frames.

YELLOW SUMMER CROOKNECK

SPINACH

PURPLE TOP STRAP LEAF

FINEST VARIETIES OF PEAR AND PLUM TREES

Pear Trees

39^c

EACH
3 TO 4 FEET
POSTPAID

Every orchard should have a few pear trees, for there is no fruit more delicious nor is there a finer fruit for canning or pickling. The varieties offered you by Sears are the best obtainable, and the price is low. Pear trees grow best in clay loam, although they do well in almost any soil. They should be planted 20 feet apart. **Postpaid.**

Bartlett: Large beautiful golden yellow. Flesh white, juicy, sweet and delicious; ripens early. Bears abundantly.

Lincoln (Summer): Large yellow, good quality similar to Bartlett but more resistant to blight.

Seckel: A small high quality pear. Juicy, sweet and fine eating. (Called the Little Sugar Pear).

Kieffer: Rich golden yellow, tinted red. Firm, crisp, and juicy. Improves after picking. A good keeper.

Clapp's Favorite: Ripens early. Lemon yellow, brown dots. Splendid flavor.

Anjou: Seedling of Bartlett. Ripens early.

See prices below.

Special Pear Trees for Northwest Customers

Shipped from Nurseries in Iowa and Minnesota. **Postpaid.**

Flemish Beauty: Very productive. Bear in climates where winters are severe.

Mendel: Originated in Minnesota. Very hardy. Blight proof, sweet and juicy.

State Varieties Wanted. **Postpaid.**

42^c Plum Trees

EACH
3 TO 4 FEET
POSTPAID

Plum trees will thrive almost anywhere. Fine for the chicken run. Excellent fruit for canning or jellies. Plant 16 to 18 feet apart. **Postpaid.**

Bradshaw: Early and very large. Purple. Very good quality; a strong growing variety, excellent for canning.

Burbank (Midseason): Large dark red. Flesh amber yellow, firm, very flavorful.

Damson (Late): The most widely planted Damson. Purplish black. Very productive.

Abundance (Early): A pinkish red, medium size Japanese plum. Flesh is yellow.

Red June (Japanese): Garnet-red skin, mottled. Flesh light yellow. Early. Large fruit. Good shipper.

Lombard: Leading commercial plum. Light to dark purplish red, yellow flesh. Fruit grows in clusters. See prices below.

Special Plum Trees for Northwest Customers

Shipped only from Nurseries in Iowa and Minnesota. **Postpaid.**

Waneta: Deep red, delicious flavor. Hardy and prolific.

Wild Goose: An old favorite. Large, deep red fruit. Juicy, richly acid. Early ripening.

Compass: Cross between Rocky Mountain cherry and native plum. Hardy as wild plum. Sweet juicy, fine flavor.

Green Gage: Small, but of high quality. Yellowish green. Fine for canning.

State Varieties Wanted. **Postpaid.**

SELECTED BLACKBERRY and RASPBERRY Plants

49^c Blackberry Plants

10 BUSHES
LUCRETIA
POSTPAID

Blackberries may be planted along fences or lot lines, thus you can make waste land produce a revenue. Plant six feet apart. **Postpaid.**

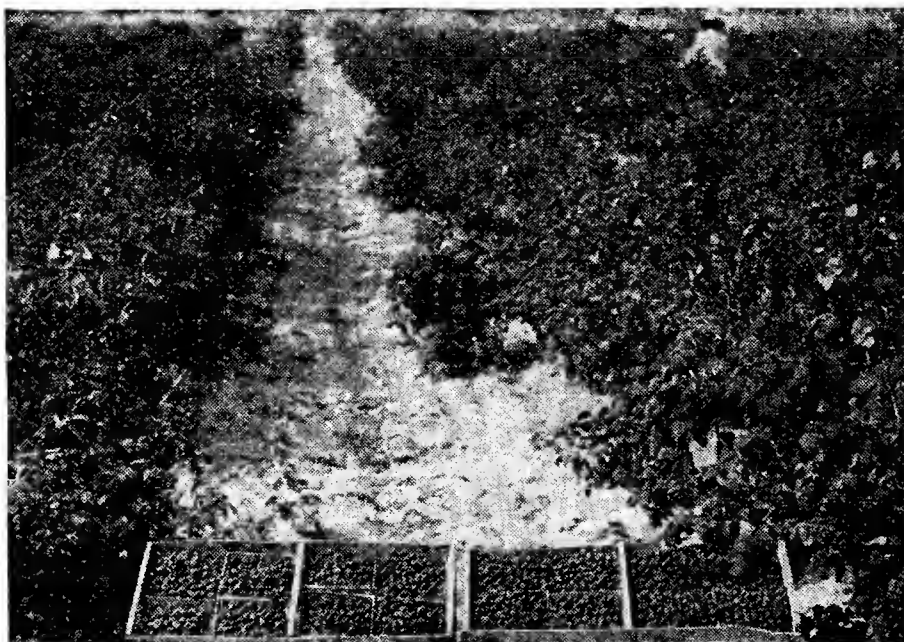

Eldorado: Very hardy and of high quality. Withstands cold. Medium size, jet black, sweet and melting. Good keeper.

Early Harvest: Medium size. Because it is early and has good shipping qualities it is a wonderful money-maker.

Blowers: Large jet black berries of superb quality.

Lucretia Dewberry: Ripens earlier, is sweeter and equals in size the best blackberries.

Snyder: Medium size berry. No hard, sour core.

Special Blackberry for Northwest Customers

Shipped only from Nurseries in Iowa and Minnesota. **Postpaid.**

Youngberry: Large, new berry. Deep wine color changing to jet black. Suggests combination of blackberry, raspberry and dewberry.

Special Raspberries for Northwest Customers

Shipped only from Nurseries in Iowa and Minnesota.

Sunbeam: Perfectly hardy without winter protection. A large red raspberry. Fine for canning.

Plum Farmer: Hardy black raspberry. Firm and rich. Good shipper. See price list at right.

Raspberry Plants 55^c

10 BUSHES
ST. REGIS
POSTPAID

Raspberries are easy to grow, are good moneymakers, and splendid for the table or canning. Often planted on waste land, or in young orchards, Sears plants are the finest obtainable.

Chief: A recent introduction of the Minnesota State Experimental Farm. Similar to Latham but considered by some to be of better quality and more prolific. Most everyone knows what a sensation and what a money-maker Latham has been. Crimson color.

Latham: One of the finest reds ever originated. Like Chief, it originated in Minnesota. Hardy in extreme northern sections. It is a proven money maker. A heavy producer. Yields of as high as 5,000 quarts per acre are on record!

Cuthbert: Large, rich crimson color berries of superior quality and flavor. Fine for canning. Moderately hardy and does well in a wide variety of soils.

St. Regis: A superb variety and now considered absolutely the finest everbearing red raspberry. Gives more uniform and satisfactory results year after year than any other red raspberry. Produces large sweet berries from early summer to late fall.

Cumberland: Large jet black berries, firm, excellent quality, sweet and mild. Midseason. Produces the largest Blackcap crop.

Shipped from nursery in Michigan, Kentucky, Delaware, Iowa or Minnesota.

71 T 640—Quantities up to 500 plants. **Postpaid.**

LATHAM Red Raspberries

Even the picture makes you hungry! One of the most delicious of all "red" varieties, and one of the heaviest producers. Yields on record show that the Latham has produced as high as 5000 quarts per acre!

As this berry originated in Minnesota, it is as hardy as a pine tree; it is a big favorite in extreme Northern sections.

A profitable berry for the market on account of its hardiness and prolific bearing.

Sears selection contains only the best in bush fruits—red raspberries, black raspberries and blackberries.

Complete listings on opposite page. Note Sears low prices on the highest quality plants, and the wide selection of the finest varieties.

Bradshaw Plums

3 to 4 Foot

Here's a hardy variety of early plums. The color is a rich purple and they are of large size. Delicious for canning or preserving. Sweet and firm.

Sears offer a splendid variety of this popular fruit. **Complete listings on opposite page, where you will find attractive prices for quantity orders.**

42^c

**EACH
POSTPAID**

The Luscious Bartlett

3 to 4 Foot

A favorite variety of this favorite fruit. Everybody likes Bartlett pears! A sweet, juicy, delicious fruit, with firm, white flesh, and a brilliant blush on the side toward the sun. The Bartletts ripen quickly—generally in August or early September, when prices are highest.

Just one of the many fine pear varieties offered by Sears. See opposite page for complete listings and quantity prices.

POSTPAID**

DORSETT

Leaders!

Dorsett and Fairfax

Lead the Strawberry Parade

They lead in vigor, health, productivity, size, quality, color, flavor, firmness and attractiveness.

These two wonderful strawberries are beyond question the finest June-bearing varieties ever grown. When you buy these varieties from Sears you are sure to get the original strain, because the plants come direct from one of two nurseries selected by the U. S. Department of Agriculture for dissemination.

No strawberries have so completely swept the country in so short a time, or have received so much praise from growers in all sections of the country.

Dorsett Strawberries

The Dorsett is the outstanding new early strawberry! A large, sweet, tasty berry that has proved its superiority over all other early varieties in many districts, and is fast becoming a favorite everywhere. The reason for this is plain—the Dorsett has size, flavor, produces a big crop, and is solid enough to be an excellent shipper. The plants are vigorous, and produce large, salable berries even in a dry season. **Shipped from nursery in Delaware only. Postpaid.**

\$ 1.10
Per 100
Postpaid

Fairfax Strawberries

Although of the same parentage, the Fairfax differs slightly from the Dorsett. Alike in vigor and productiveness, the Fairfax is of a deeper red color, and, as it is firmer, it is a better berry for long distance shipping. The Fairfax flavor is rich and sweet, it ripens early and bears heavily throughout a long season. Many growers report that they did not lose a single plant, and that the fruit surpassed other favorites in the same field. **Shipped from nursery in Delaware only. Postpaid.**

Everbearing Strawberries

For those who like plenty of fresh strawberries right from the garden, from the beginning of the season until frost, the everbearer fills the bill. And this long-bearing fruit will bring you in a nice profit on out-of-season sales. While the everbearing strawberry is not usually recommended as a money crop, many growers have been known to profit by them under favorable conditions; where land holds moisture throughout the summer, and where a ready market can be found. By all means, have a few everbearers in your garden.

Mastodon: Most extensively planted Everbearing variety. Produces extremely large fruit throughout the summer and fall months.

Progressive: Of vigorous habit, hardy and productive. Berries deep crimson, fine quality.

June-Bearing Strawberries

Here are some favorite June-bearing varieties, including the famous Premier and Senator Dunlap.

Aroma: Another favorite late shipper. Famous for its vigor, productiveness, fine appearance and large size. Good flavor. Adapted to clay or silt soil.

Big Joe: An excellent berry. Fruit is firm and of large size, has a good flavor, no green tips. (This variety cannot be supplied to customers of our Kansas City or Minneapolis Mail Order Stores).

Blakemore: A comparatively new berry, introduced by U. S. Department of Agriculture. A vigorous, healthy variety that will stand up well throughout the season. Flavor rather tart; a favorite for canning or preserving.

Gandy: An old-time commercial favorite. Large fruit and very productive. One of the best of the late shipping berries.

Premier (Howard 17): For twenty years an old favorite early berry in many sections. Takes first place in quality along with Dorsett and Fairfax. Produces a fine, vigorous plant growth in almost any kind of soil. Medium red in color, turning darker as they ripen. Fairly good shippers, as flesh is moderately firm. Splendid flavor. Resistance to frost injury is outstanding.

Senator Dunlap: The old reliable, widely planted variety; long a favorite in northern and western states. Medium size, fine flavored berries. Deep red color clear through.

Quantities up to 5,000, 71 T 526

YOU'LL GET BETTER LAWNS—BIGGER AND

Ferto Paper

A new, improved easy method of fertilization. Eliminates necessity of cultivating and weeding. Increases soil temperature. Retains moisture. Can be used on vegetables or flowers. Ferto is a fertilizer-impregnated paper. The fertilizer on the bottom of the paper is dissolved by moisture and carried into the soil. Ferto Paper prevents weed growth, acts as a moisture retainer and increases soil temperature. Ferto disintegrates after its period of usefulness is over and does not have to be removed. Simply lay it between the rows and anchor with a thin layer of earth. No need to hoe or cultivate when you protect the soil with Ferto, as weeds cannot grow through. Not Prepaid. 71 TM 2840—18-in. roll, 900 ft. long. Shpg. wt., 32 pounds\$1.93

Pulverized
Sheep
Manure

Sheep manure is one of the most extensively used animal manures. It is an ideal fertilizer for lawns and gardens. Will give immediate results. Ours is a superior product. Not leached out, air-dried, western or imported corral manure. New fresh stock, dried by direct heat process, thus destroying all weed seeds, fungus and disease germs. Use at the rate of 100 pounds per 1,000 square feet on lawn or gardens. Shipped from factory in Chicago, Ill., Kansas City, Mo., Philadelphia or Baltimore, by freight or express. Not Prepaid. Kills Codling Moths on Apple Trees

Our improved 1935 Beta-Naphthol Band is superior to any band heretofore offered to orchardists. Simple—effective—inexpensive. Wrap 2-inch band around tree according to instructions. Tests by U. S. Bureau of Entomology and fruit growers prove this method effective. Apply bands in June. Ready for shipment April 15th. Order now. Not Prepaid.

25-Foot Roll—71 T 4880 **69c** 250-Foot Roll—71 T 4881 **\$2.89**

Shpg. wt., 2 lbs. 8 oz. Shipping wt., 15 lbs.

Write for free circular No. T8451N and special prices on larger quantities.

Dogzoff

Many dollars worth of shrubs, evergreens, etc., are destroyed by dogs each year. Protect your shrubs against this loss for only a few cents with Dogzoff Spray.

Keeps the dogs away from trees, shrubs, hedges, garbage cans, etc. Very effective; never fails to chase 'em away, and it's a lesson soon learned. Protect your valuable ornamental plants, shrubs and trees effectively at slight cost. Not Prepaid. Shpg. wt., 12 ounces.

71 T 4870—1-3 oz. bottle **53c**

BETTER CROPS WITH SEARS FERTILIZERS

Sears Lawn and Garden Grower

A balanced fertilizer. Contains the proper amount of Nitrogen, Phosphate and Potash, elements necessary to all plant life. Will induce luxuriant lawns and larger crops if used according to directions. Well fertilized soil discourages weed growth. Use 4 lbs. to each 100 sq. ft. Shipped by freight or express. Not Prepaid. Shipping weight, 51 lbs. and 102 lbs.

50-lb. bag—71 TM 3070 **\$1.95**

100-lb. bag—71 TM 3071 **2.98**

Armour's Garden, Lawn Fertilizer

If you want a beautiful lawn or an abundance of big vegetables use this popular low priced fertilizer. Requires about 5 lbs. for each 100 sq. ft. 25-lb. and 50-lb. bags are available. Not Prepaid. Shpg. wts., 26 lbs., 51 lbs., and 102 lbs. respectively. 100-lb. bags shipped by freight or express.

25-lb. bag—71 T 3050 **85c**

50-lb. bag—71 TM 3051 **\$1.39**

100-lb. bag—71 TM 3052 **2.35**

Sulphate of Ammonia

Extremely high in nitrogen. Widely used for stimulating rapid and large leaf growth. Exceptionally fine for lawns. As it tends to create an acid reaction in soil it discourages the growth of weeds. A fine plant food for house plants, flower gardens or shrubs. All sizes mailable. Not prepaid.

Pkg.	Cat. No.	Shpg. Wt.	
5-lbs.	71 T 3007	6 lbs. 2 oz.	39c
10-lbs.	71 T 3008	11 lbs. 12 oz.	65c
25-lbs.	71 T 3009	26 lbs.	\$1.29

G and O Plant Food

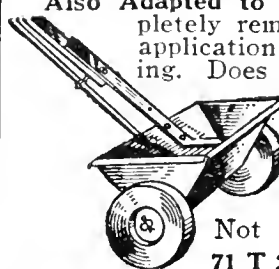

A highly concentrated plant food for all forms of plant life. Fine for potted house plants. Odorless, clean and will keep indefinitely if kept dry. Analysis: Nitrogen 11%, Phosphate 15%, Potash 20%. A teaspoonful dissolved in a gallon of water and applied every 10 days will produce luxuriant foliage, beautiful flowers and earlier and bigger vegetables. Not Prepaid. Shpg. wt., 1 lb. 8 oz.

1-lb. pkg.—71 T 3025 **33c**

Fertilizer Spreader

Also Adapted to Grass Seed Sowing. Completely removes the messiness of hand application of plant foods and top dressing. Does away with uncertainty of lawn seed distribution. Adjustable Feed. Spreads 14 in. wide, capacity 300 sq. ft. to one filling of plant food. Sturdily constructed. Long lasting. Not Prepaid. Shpg. wt., 9 lbs.

71 T 2885 **\$2.59**

Fertilize This Easy Way

Attach the Plantilizer to your hose. Turn on the water, sprinkle your lawn and the job is done. The Plantilizer nozzle contains 6 cartridges (sufficient for 500 square feet) of concentrated fertilizer (42% Nitrogen) which dissolves as water passes through nozzle. Not prepaid. Shpg. wt., 1 lb. 4 oz.

71 T 4800—Sprayer Nozzle with 6 Cartridges **89c**

71 T 4801—Refill Cartridges. 5 Sets (30 cartridges) enough for 2500 sq. ft. Shpg. wt., 1 lb. 6 oz. **98c**

Sears Purity Tested GRASS SEED

Jackson Park Mixture

This is Sears popular, medium priced lawn seed; a favorite in all sections. All choice, clean seed, free of weed seeds and other impurities. Contains a small amount of white clover. Improve your lawn this year! Postpaid.

1-lb. Pkg.	71 T 2635	34c
3-lb. Bag	71 T 2637	93c
5-lb. Bag	71 T 2638	\$1.42

BE SURE TO BUY GOOD LAWN SEED

Of prime importance in making good lawn is the quality of the seed used. Sears seed is put to rigid laboratory tests for germinating qualities and for purity. When you buy from Sears you are assured of getting a good clean mixture with a reputation for producing good turf. None of our mixtures contain timothy. Sears are the largest retailers of Grass Seed in the world which enables us to offer fine mixtures at prices as low or lower than are usually charged for only ordinary grades. Sow lawn seed at the rate of 1 lb. to 200 sq. ft. (20 ft. x 10 ft.). Planting instructions furnished.

Green Karpet Mixture

For a quick growing lawn use this low priced mixture. Should be followed with a reseedling of Blue Grass or Superfine Mixture early in the fall.

1-lb. Pkg.	71 T 2755—Postpaid	23c
3-lb. Bag	71 T 2757—Postpaid	65c
5-lb. Bag	71 T 2758—Postpaid	98c

Superfine Mixture

Our exceptionally fine mixture of best, strong vitality seeds, often selling for 75c per lb. Produces a wonderful lawn. The finest Kentucky Blue and Red Top are the basic varieties of this mixture.

5-lb. Bag	71 T 2688—Postpaid	1.69

Seaside Creeping Bent

Certified by Oregon State Agricultural College. Ninety-six per cent purity or better. Makes a beautiful carpet-like lawn. Coos County strain; quick growing. One pound contains approximately 7,000,000 seeds; enough to sow 500 sq. ft.

2-lb. Pkg.	71 T 2706—Postpaid	\$3.25
------------	--------------------	-------	--------

Fancy White Clover

Sears White Clover Seed is a fancy grade of high purity, and should not be compared with low grade clover seed sometimes offered at even a higher price than ours. Free from all foreign matter and weed seeds.

1-lb. Pkg.	71 T 2646—Postpaid	55c
------------	--------------------	-------	-----

Wheeling Bent Grass Plugs

The carpet-like lawn around Sears building at the Century of Progress Exposition drew favorable comment from thousands of visitors. Perhaps you, too, marveled at its beauty. You can have lawn like it by planting Wheeling Bent Grass Plugs. The spreading character of Wheeling Creeping Bent crowds out dandelions, weeds, etc., producing lawns of uniform texture the first season. Box contains 96 plugs, which are planted 12 inches apart, enough for approximately 100 sq. ft. Creeping tendency eventually makes complete coverage. Can be set in old lawns. Shipped by express from nursery near Chicago. Not prepaid. Shpg. wt., per box, 12 lbs.

24x18 in.	14,520	36x24 in.	7,260	60x48 in.	2,178	40x40 ft.	28

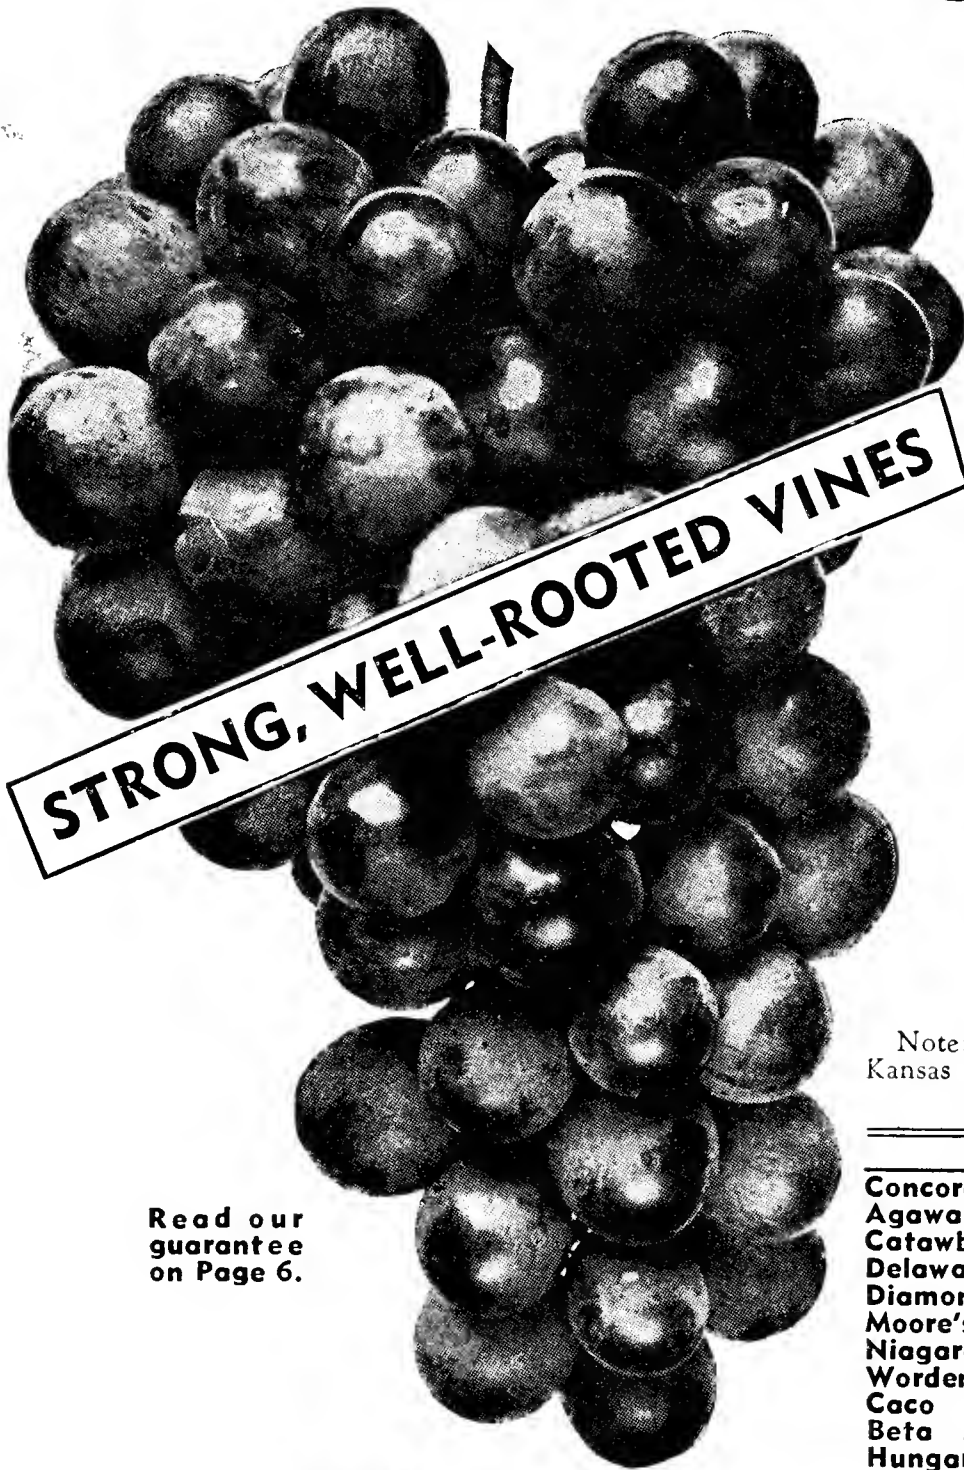

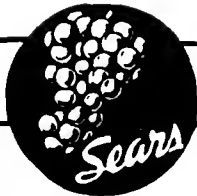

RULE. Multiply the distance in feet between the rows by the distance the plants are apart in the rows and the product will be the number of square feet for each plant or hill; which, divided into the number of feet in an acre (43,560), will give the number of plants required for one acre. Example: 1 ft. x 1 1/2 ft. equal 1 1/2 sq. ft. 1 1/2 sq. ft. divided into 43,560 sq. ft. equals 29,040, which is the number of plants required to plant an acre when set 1 ft. x 1 1/2 ft.

Two-Year-Old Grape Vines

CONCORD

12c

EACH
POSTPAID

Regardless of our low price you will find our vines to be strong, well-rooted, vigorous and worth much more than cheap and scraggy-rooted stock. Grapes can be grown on hill-sides, along boundary lines or on arbors and trellises. Plant Grape Vines about 10 feet apart.

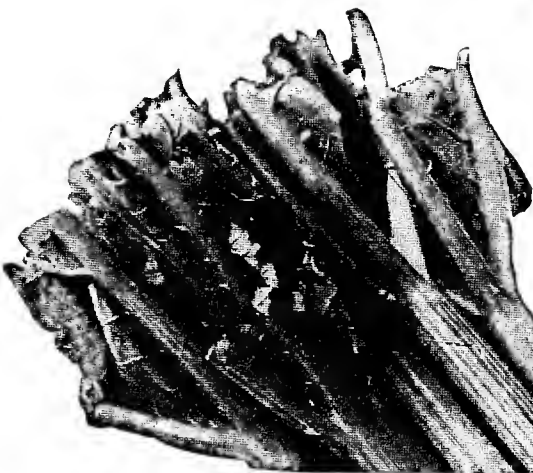

Sears Popular Varieties

- Concord** (Black): Best known grape. Succeeds practically everywhere.
- Agawam** (Red): Berries are large, rich and sweet. Ripens after Concord.
- Niagara** (Green): The most widely planted green grape. It bears more heavily in some localities than Diamond.
- Catawba**: The standard red grape of Eastern America. Vines are vigorous, productive and hardy.
- Delaware** (Red): Best table grape and an old time favorite.
- Diamond** (Green): Hardest, most productive and vigorous of the green grapes.
- Moore's Early** (Black): Best early; commercial grape. Ripens two weeks earlier than Concord.
- Caco** (Red): A cross between Catawba and Concord. Retains good qualities of both.
- Worden** (Black): Better quality and larger than Concord. Ripens about 10 days earlier.
- Beta**: Hardy, productive, medium size, black fruit, early.
- Hungarian**: Originated in Minnesota. Very productive; fine flavor, black; needs no winter protection.

Note: Beta and Hungarian can only be shipped to customers of our Kansas City and Minneapolis mail order stores.
71 T 570—State catalog number and variety.

Rhubarb Roots

Nothing takes the place of Rhubarb for early spring pies and sauce, and besides it's a fine spring tonic.

Sears offer the **Myatt Linnaeus** variety, a well-known leader. Large, early, tender, prolific; never stringy or tough.

Set 4 feet apart, preferably in rich, deep loam. The forcing of Rhubarb in hotbeds, under greenhouse benches, or in cellars for winter and early spring markets, is profitable, and is practiced by many of our customers, who are alert to high early prices.

Postpaid.

CHERRY TREES

In recent years there has been an over-production of cherries with the result that trees have been neglected and orchards have not been replaced. For that reason we advise planting now. Sour varieties should be planted 15 feet apart, and sweet about 20 feet apart.

Sour or Pie Cherries

May Duke: Large, red and juicy. Ripens in July.
Montmorency: The most largely planted of the sour varieties. Fruit is a beautiful red and does not crack or rot even in very hot, rainy weather.
Early Richmond: A fine early sour variety. Fruit is medium size, dark red; tender.

Special Varieties for Northwest Customers

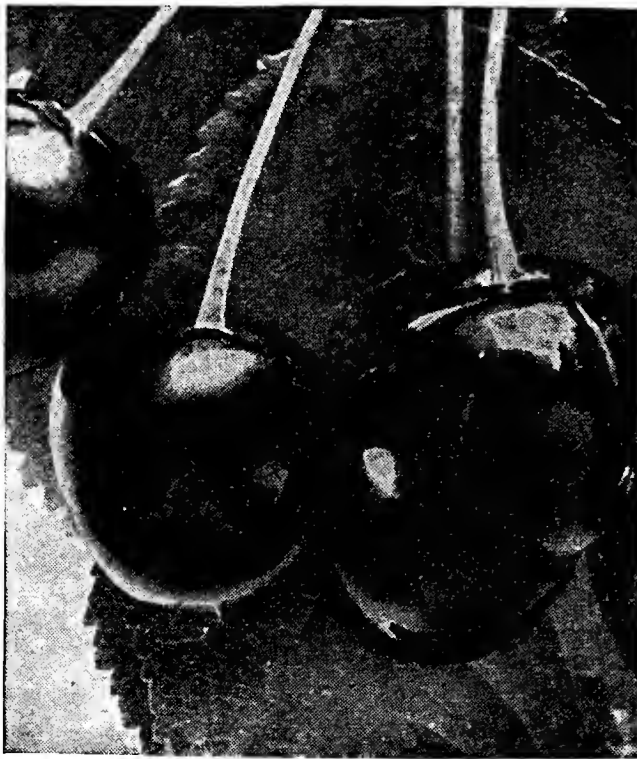

Improved Rocky Mountain: Extremely hardy. Tart, black fruit when ripe. Fine for jelly.
Zumbro: Hardy, large black fruit. Fine for sauce and preserves. Good eating fresh from tree.
 State variety wanted. Postpaid.

QUINCE TREES

The quince is a favorite fruit for jellies, preserves, or for flavoring purposes. The crop is very reliable, and is seldom affected by weather variations.

Sears offer the **Orange** variety of quinces. They are medium size, of very pungent odor and flavor, and "cook up" splendidly.

APRICOT TREES

The apricot is one of the most delicious and richly flavored fruits. The demand for apricots is constantly growing. Bear early; should be set about 18 feet apart.

We cannot furnish Apricots from Minnesota nursery.

Early Golden: One of the finest early Apricots.

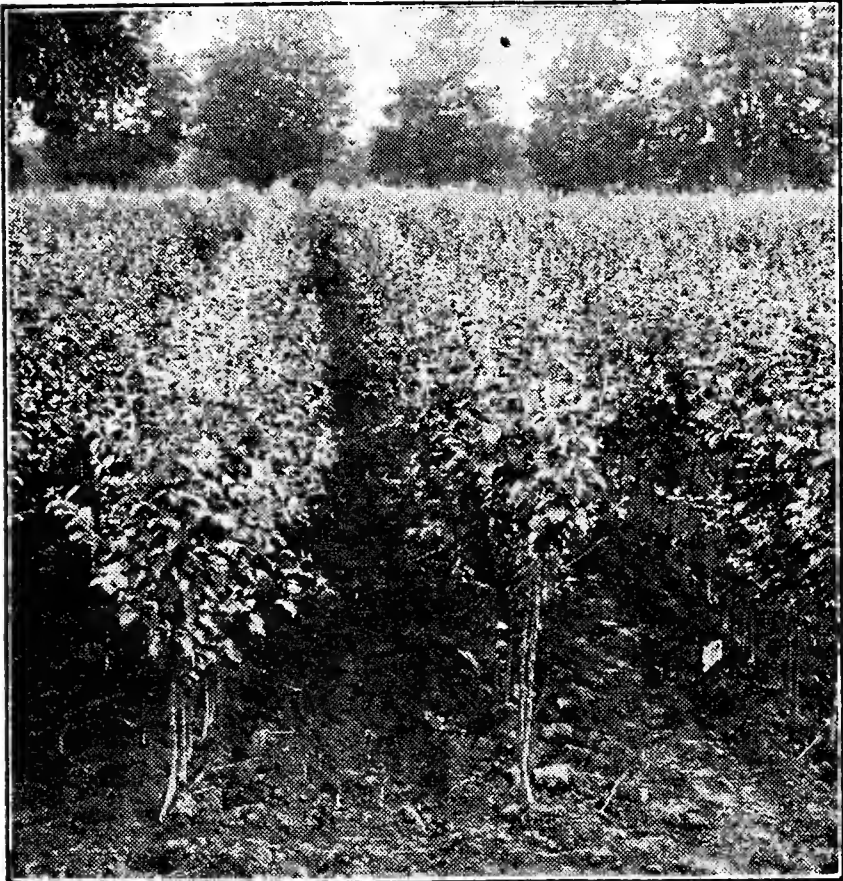

Alexander: A Russian variety; hardier than Golden or Moorpark. Can be grown in localities where peaches fail.

Moorpark: One of the largest; orange-red, juicy; rich flavor. June.

APPLE TREES

42^c

EACH
3 TO 4 FEET
POSTPAID

Young Apple Trees have not been set out nearly as fast as the old Apple Trees have died out. That's the situation in a nutshell. As a consequence the "King of Fruits" has suffered. Neither the market nor the home now contain the apple varieties they need. Plant an orchard now and profit by this splendid fruit when it comes into bearing. Every farm should have a producing orchard, with a proper balance of early and late varieties. Sears prices are low, the trees are carefully selected from hardy healthy stock and many new varieties have been added.

Early Apples

- Yellow Transparent:** A fine early variety. Medium size yellow skin. Fine grained white flesh, juicy, pleasant spicy flavor. A tasty early variety. Excellent for eating and cooking.
- Early Harvest:** Medium size apple of very good quality for either eating or cooking. Thin skin, waxen yellow color with slight blush on sunny side, flesh white, tender, crisp and juicy. Sub-acid, becoming mild. Tree comes into bearing rather young.
- Maiden's Blush:** An old favorite. Waxy yellow with crimson blush. Fruit medium to large size. White, crisp flesh, tender and juicy. A splendid cooking apple.
- Red Astrachan:** A beautiful early summer apple. Crimson skin; white, crisp, moderately juicy flesh. Fine for eating or cooking. Best apple for sauce. The best early eating apple.
- Williams Early Red:** One of the earliest apples to ripen, and the largest of the early varieties. Bright, shiny red; flesh white and slightly tart. Bears heavily on young trees. Good for cooking or market.

Early Fall Apples

- Grimes Golden:** Medium size, yellow; delicious flavor and rich golden color. Flesh is very firm, crisp, tender and juicy. A very dependable bearer. Tree is hardy, vigorous and productive.
- Wealthy:** White fleshed, juicy, beautiful apples, medium size fruit, deep red. Suitable for Northern planting.

Late Fall and Winter Apples

- Delicious:** Large red apples, beautiful in form and color. Mild in flavor, crisp and juicy. An excellent commercial variety.
- Jonathan:** Bright red color. Whitish flesh; sometimes tinged with red. Tender, very crisp, firm and juicy.
- Baldwin:** Large red, fine quality winter apple; flesh yellow, firm, tender, crisp, juicy and of good quality.
- McIntosh:** A most beautiful apple of extra high quality. Deep red in color; of medium size, round, even form. A splendid keeper. A favorite wherever grown.
- Northern Spy:** A good winter keeper. Skin striped and covered with crimson. Flesh juicy, mild acid. Keeps its fine eating qualities after many others have gone.
- Rhode Island Greening:** Good storage apple, with heavy market demand. Green skin. Flesh yellowish, with rich acid flavor. Popular for cooking or eating.
- Rome Beauty:** Large handsomely colored apples; striped with bright red. Flesh is firm, crisp, juicy and of good quality. A favorite variety. Fruit stands handling remarkably well. A good keeper.
- Stayman's Winesap:** Dark, rich red. Flesh tinged with yellow; firm and crisp. A good keeper.
- Winesap (Winter):** Splendid bright red. Flesh tinged with yellow; firm, juicy and good quality. Medium size.

Crab Apples

- Hyslop:** Large, dark red color. Flesh yellow; sub-acid, astringent and good for cooking. Very hardy.
- Whitney:** Large fruit, light yellow, striped with carmine. Pleasant acid flavor. Fine for cooking or dessert. Very hardy.

State Variety Wanted. Postpaid.

FROM REPORT OF U. S. DEPT. OF AGRICULTURE
BUREAU OF AGRICULTURAL ECONOMICS

"The average production of Apples in the U. S., which reached a peak in the period of 1913-1917, is now at about the 1910 level, while the number of trees has decreased approximately 46 per cent."

Translated into numbers of trees, both bearing and non-bearing age, this means a reduction of approximately 60 million trees!

SPECIAL APPLE TREES
For Our Northwest Customers

The apple trees listed below are shipped from Minnesota Nursery only, and are specially selected hardy varieties for the Northwest. Postpaid.

- Charlamoff:** (Early). One of the best early eating apples. Fruit medium size, striped and acid. Tree is very hardy, productive and free from blight.
- Anisim:** (Fall). Hardy. Free from blight. Fruit small, rich red color. Tender and juicy. Fine for cooking or eating.
- Okabena:** (Fall). A prolific bearer. Good keeper. Large fruit, extremely hardy and free from blight.
- Malinda:** (Winter). Large, round fruit, greenish yellow skin. Flesh yellow, fine grained and firm; sub-acid. Very vigorous and hardy.
- Red Wing:** (Winter). Large, red apple that will keep until following summer. Very hardy, and a heavy producer. Fine market variety.

McINTOSH

Golden Jubilee

3 to 4
foot
Trees **32^c** Each
POSTPAID

The Golden Jubilee is, without a doubt, the finest early freestone peach you can raise. The fruit is large, perfectly shaped, juicy and flavorful. The skin is smooth, of brilliant yellow color, with a blush like a sunset. The flesh is luscious, firm and yellow.

Trees are exceptionally hardy, the buds withstanding freezing winter weather better than other varieties.

The Golden Jubilee is an Elberta type peach, although it ripens four weeks before the Elberta. For early marketing the Golden Jubilee has no equal. Being the first to ripen, and because of its size, beauty and flavor, it brings top prices in the early markets. The Golden Jubilee is not "fussy" about soil or climate—it will grow successfully in any soil or climate where other peach varieties are grown. **Shipped from nursery near you. Postpaid.**

Elberta

3 to 4
foot
Trees **32^c** Each
POSTPAID

The Elberta is the most widely grown commercial freestone peach. It ripens in midsummer, around the middle of August, and finds its way into every corner where peaches are eaten and canned. The fruit is large, golden yellow, with a bright red blush; the flesh is firm, rich yellow and of excellent flavor.

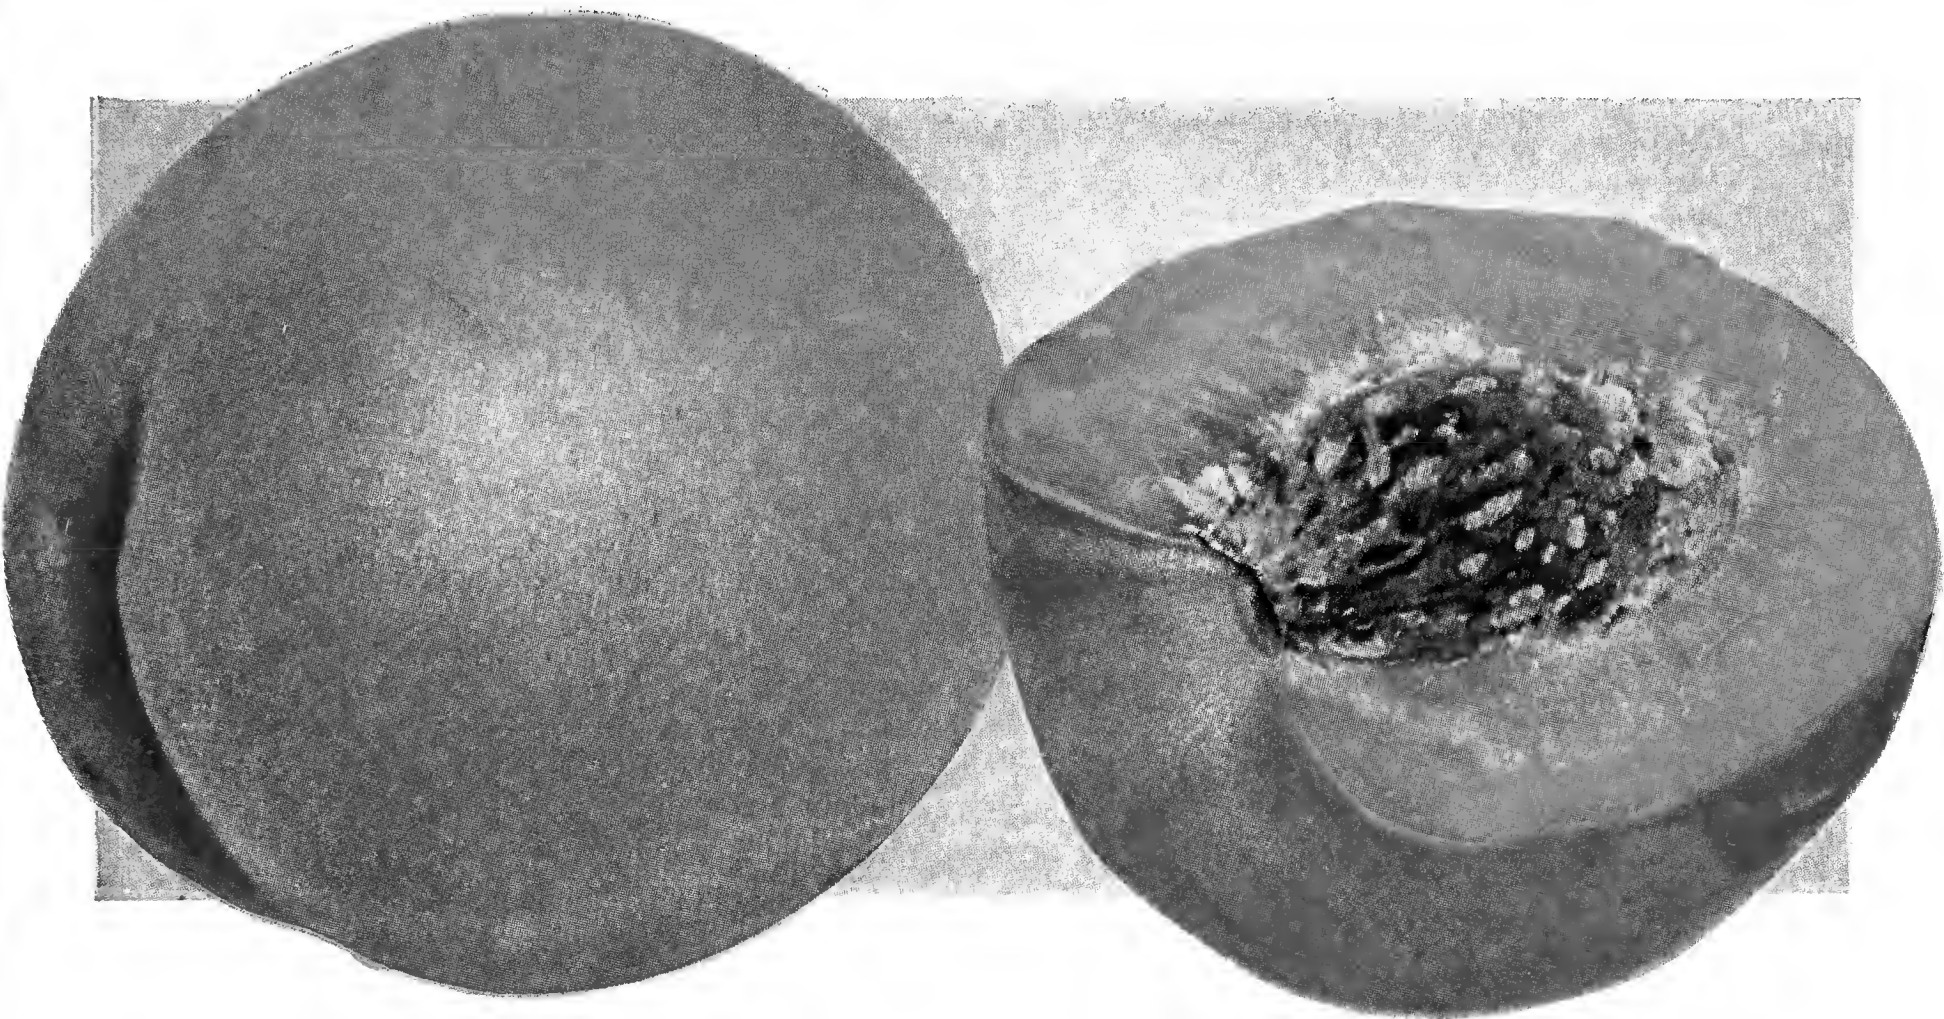

It is best to have a number of good midsummer ripeners in your orchard as well as early ones. With such splendid varieties as the Golden Jubilee and the Elberta, you can demand the highest market prices on your peach crop from July through the canning season. We do not recommend planting peaches in regions of extreme cold. **Shipped from nursery near you. Postpaid.**

J. H. Hale—the Pride of the Peach Crop

3 to 4
Foot
Trees

32^c

EACH
POSTPAID

The J. H. Hale is one of the world's finest freestone Peaches, a worthy member of the great triumvirate along with Golden Jubilee and Elberta. It ripens between these two, and fills in the gap with exceptionally large, golden yellow fruit. The skin of the J. H. Hale is overlaid with carmine, making it a more colorful Peach than the Elberta. A distinction of this Peach is that it has no fuzz, the skin being smooth. J. H. Hale trees are very productive, and the fine appearance and large size of the fruit give it a high market value. **Shipped from nursery near you. Postpaid.**

Now is the Time to Plant!

It is a fact well known among nurserymen and commercial orchardists, that the planting of new peach orchards has declined to a marked degree in the past few years. Statistics gathered by the U. S. Dept. of Agriculture, Bureau of Agricultural Economics, show that there was a decline in five years in the total peach tree planting, including trees of bearing age and those not of bearing age, of approximately eight million trees in the states east of the Mississippi River.

Such a marked decline can mean only one thing—a reduction in the fruit crop. With a reduced fruit crop must naturally come higher prices. Therefore, we believe that trees planted now will come into bearing during a period of high fruit prices. A small investment in a peach orchard should bring handsome returns in a few years. Plan to plant a peach orchard this year!

Other Favorite Varieties

Sears offer only the choicest of early, midsummer and late ripening varieties of Peach trees. All hardy stock from famous nurseries, but we do not recommend planting peaches in regions of extreme cold.

Set Peach trees 16 to 18 feet apart, and plant on northern or western exposure, so that they will not bloom ahead of late frosts.

Peach trees are fast stepping away from so-called fruit belts. They grow successfully in a wide range of soils—sandy loam, well-drained gravelly loams and sand.

Early Ripening

- Carman** (White semi-freestone): A great favorite. Good size; **white** with **red** blush. Bears abundantly; hardy and vigorous. Ripens July.
- Rochester** (Freestone): Extra early Peach. Large fruit. Deep golden yellow skin with **red** cheek. Very juicy. Ripens late July.
- Early Elberta** (Freestone): Very large, high quality; **lemon-yellow**. Sweet, fine grained flesh. Ripens a few days earlier than Elberta.
- Champion** (Freestone). Good size and quality. Skin is **creamy white** with **red** blush; flesh **white**, sweet and delicious. Ripens in July.
- Mayflower** (Semi-freestone): One of the very earliest varieties. **Bright yellow** with flesh of delicious flavor. Ripens in July.

Midsummer Ripening

- Belle of Georgia** (White freestone): Handsome, large, **white** blushed with **red**, excellent quality, hardy; best white Peach. Good shipper. Ripens August 15th.
- South Haven** (Freestone): Very popular in Michigan where it was recently introduced. Unusually hardy and very productive. Ripens about August 15th.

Late Ripening

- Heath Cling**: **White**, tinged next to the sun. Large, firm, juicy. Fine flavor. Ripens about October 1st.
- Late Crawford** (Yellow freestone): A high quality, large, **yellow** Peach, scarcely equalled in flavor and adaptable to a wide range of soils and climate.

State variety wanted. Postpaid.
